

MVSR Engineering College, Nadergul.
Department of Mechanical Engineering
COURSE OUTCOMES

Class: B.E.III Year II Sem (Mech. Engg.)

Name of the Course: **Industrial Visit**

Course Code: ME 383

At the end of the course student is able to

No.	Course Outcome	Pos Mapped
ME332.1	Relate how the theoretical aspects learnt in the class room such as thermal, design, production or Industrial engineering and management are demonstrated in practice	PO1, PO2,PO3
ME332.2	Observe intricacies and the magnitude of the equipment being produced/ operated. Make an individual assessment of field of interest to pursue career further in the areas of equipment design, production, operations, research & development and industrial management etc.	PO1, PO2,PO3, PO4,P12,PSO-01
ME332.3	Analyze operation, control of entire system consisting of numerous subsystems and equipment. List the equipment specifications and correlate their characteristics along with limits of operation and instrumentation involved, while executing their intended task.	PO1, PO2,PO3, PO4,PO11, P12,PSO-01
ME332.4	Plan for an extended exposure to these systems through an internship, to pursue career in the areas of research and development.	PO1, PO2,PO3, PO4,PO11,PSO- 01
